- A 10% discount will be applied for group registration (a group of 5 & above)
- ₹10,000+GST for students from International Universities

Testimonials

At Element H, I was given the opportunity to explore the theoretical and practical intricacies of the world of psychology with the helpful guidance and insights of seasoned professionals in the field. It was truly an enriching experience as a student of psychology.

-Aparna Manu (Ashoka University, Delhi)

Element H's internship was a total game-changer. For a person like me who is very new to being in a work space it was an eye opener. The coordinators were so organised and welcoming, they were always ready to spill the knowledge tea and were open to answer our questions. Keerthi ma'am and Sandhya ma'am were the brainiac dream team. The discussions on clinical, organisation and counseling psychology were enriching. Those recommended books? Pure magic that turned me into a bookworm!

-Hamna (WCC, Chennai)

My internship at Element H was enlightening and filled with valuable learning experiences. The highlight was gaining insights into both organizational and clinical psychology. The team is warm and supportive, aiding in maximizing learning from various clinic experiences. Element H organizes numerous mental health events and workshops which are great experiences as you also get to network with professionals in and outside the field, exchange ideas, and deepen your understanding of current trends in mental health.

-Nidharshana (University of Groningen, Netherlands)
